Northern Bush Retreat – Prime Hunting & Bug-Out Property Near Meadow Lake

Discover your own slice of wilderness with this secluded quarter section tucked away in the northern woods—just a short 30-minute drive from Meadow Lake. Whether you're a passionate hunter, an off-grid enthusiast, or simply seeking a private escape from the hustle, this property has what you're looking for.

Features & Opportunities:

- Remote yet accessible: Located off the beaten path, but still reachable by vehicle year-round
- Ideal for a cabin build or rustic lodge
- Untouched terrain perfect for carving out quad or sled trails
- Dense forest cover attracts abundant wildlife—prime for hunting deer, moose, bear & more
- An exceptional bug-out location with total privacy

Lifestyle & Potential: Picture weekends filled with crisp morning hunts, afternoon trail rides, and evenings around a fire under a blanket of stars. Whether you develop it as a recreational getaway or keep it wild as your own sanctuary, this quarter section offers a rare opportunity to own a true northern escape.

SAMA Information

This information is collected from Saskatchewan Assessment Management Agency via field sheets on each individual parcel. It includes specific information such as: assessed value, uses of soil (cultivated, arable, pasture, wetlands, etc), number of acres for each use, soil profile information including association & texture, topography, stones, salinity and soil final rating.

Soil Final Rating

The final rating (FR) is the productivity rating for the acres adjusted for economic factors that affect the average cost of production for specified features. The economic factors include stones, topography, natural hazards, man-made hazards, tree cover and miles to market. The final rating units are index points per acre. Soils are given a rating from 100 (best) to 0 (worst). Soils with a final rating under 30 are marginal and rarely cropped.

Saskatchewan Crop Insurance Corporation (SCIC)

SCIC gives a class rating to every quarter section in Saskatchewan to reflect its productivity. Ratings range from Class A (best) to Class P (worst). There are 23 different risk zones in Saskatchewan. Please note a class B rating in risk zone 3 does not necessarily have the same productive capacity as a class B rating in risk zone 16.
